

ILLINOIS RISK MANAGEMENT SERVICES

37th Annual Risk Managers' Webinar

The A-MAZE-ing Life of a Risk Manager

September 9th & 10th 2021

Description:

This **virtual** conference offers a variety of presentations for risk managers, physicians, hospital leaders, APRNs, nurses, and defense attorneys. Nationally recognized speakers will share insight to minimize risk, liability exposure, and improve patient safety in healthcare.

Objectives:

- Apply the rules of the Illinois Mental Health Code to patients in the acute care setting.
- Explain the benefits and risks of real-time access to patient notes.
- Identify key components to establishing a peer support program for healthcare organizations, and details of the R.I.S.E. (Resilience in Stressful Events) program developed by Johns Hopkins Medicine.
- Identify care models that can reduce missed and delayed diagnoses related to test-result follow-up.
- Describe the current and potential applications of artificial intelligence in medicine.
- Illustrate how mid-shift huddles can prioritize safety for patients and staff.
- Discuss the economic impact of ineffective witness training and explain the purpose of cognitively based witness training.
- Describe damage mitigation strategies for the defense of medical professional liability cases.
