DESCRIPTION

This webinar will provide risk managers, nurses, APPs, physicians, and attorneys with information regarding medical malpractice claim trends and risk management challenges affecting hospitals and clinicians. Speakers will present current issues and recommendations to assist in reducing liability exposure and improve patient safety.

OBJECTIVES

- Discuss closed claim frequency and severity, recent claims and trends.
- List 3 risk management strategies that can assist in defending against apparent agency claims.
- Identify which physician situations require reporting to the NPDB.
- Describe the risk management implications of new regulations, accreditation standards, and recently published guidelines related to health care.
- Identify and implement processes to reduce risk exposure.
