[Recording Workplace Exposures to COVID-19](#)

OSHA recordkeeping requirements at [29 CFR Part 1904](#) mandate covered employers record certain work-related injuries and illnesses on their OSHA 300 log.

COVID-19 can be a recordable illness if a worker is infected as a result of performing their work-related duties. However, employers are only responsible for recording cases of COVID-19 if all of the following are met:

1. The case is a confirmed case of COVID-19 (see [CDC information](#) on persons under investigation and presumptive positive and laboratory-confirmed cases of COVID-19);
2. The case is work-related, as defined by [29 CFR 1904.5](#); and
3. The case involves one or more of the general recording criteria set forth in [29 CFR 1904.7](#) (e.g. medical treatment beyond first-aid, days away from work).

Visit OSHA's [Injury and Illness Recordkeeping and Reporting Requirements page](#) for more information.
