IHA Webinar on Strategies to Prevent Workplace Violence Is 10/23

A complimentary IHA webinar, "[Creating a Workplace Violence Prevention Program](#)" will offer insights from members on combating the growing trend of workplace violence in healthcare. The Oct. 23 program, from 10-11:30 a.m., will feature leaders from Carle Health, Horizon Health and Morris Hospital discussing how to create a safer working environment and the components of a successful workplace violence prevention program. IHA Healthcare in Violence Exercise 11/8

With violence in healthcare a top concern, every chance to plan and prepare staff will reinforce your commitment to worker safety as hospitals experience increasing incidents of workplace violence. IHA's exercise will be presented as an interactive live webinar on Nov. 8 from 9 a.m. to 12:30 p.m. Participating in the exercise will provide immediate, actionable information for hospitals. It will also help meet a requirement of the Centers for Medicare & Medicaid Services that hospitals demonstrate completion of two preparedness exercises per year.
