
IRMS/ICT FHE OSHA Tool Update

Roll Out Scheduled for March 21st

Training Sessions Schedule Below

Provided by IRMS/ICT

March 2022

For those who use the FHE OSHA tool to manage your OSHA Injury & Illness Records, please note that there will be changes to the tool beginning Monday 3/21/2022.

The following are some of the enhancements for users:

1. Easier to interpret data aligned with OSHA Recordkeeping Forms
2. All OSHA data entries and changes are on the same page
3. Full access to change all entries to the OSHA 300 Log after initial entry
4. Ability to run separate OSHA Logs for each entity
5. Ability to enter data for and create a sharps injury log

We have scheduled webex training sessions which are listed below. If you would like to receive an invite for one of these sessions, please email Mike Benedeck at mbenedeck@team-iha.org.

If you have any questions about the IRMS/ICT OSHA tool, please feel free to contact me
